

MODIFIED VEHICLE **COVERAGE**

Did You Know?

Modified vehicles are eligible for coverage on all Xtended Auto programs. By adding the Modified Vehicle surcharge, once ineligible vehicles can now benefit from Xtended Auto protection.

Included in the list are the most common performance modifications.

The actual modification is not covered under the terms of the contract.

.....

As long as the modification doesn't deem the vehicle illegal for on-road use, this list of modifications is acceptable and coverage is available with this new surcharge.
